Product Description

The enGauge™ designer frame by Knickerbocker is the perfect frame for any mattress set. The enGauge™ is capable of holding over 2500 LBS with zero motion transfer or noise. The enGauge™ is stylish, sophisticated and will match any bedroom decor. Tapered legs are crafted from fiberglass infused resin and will work on carpet or flooring with zero motion transfer. The enGauge™ frame is engineered to assemble in seconds without any tools. Time to get rid of your old metal bed frame and upgrade to the enGauge™ bed frame by Knickerbocker. The interior of the new enGauge Bed Support System is reinforced for extra strength and durability. This molded system allows for smooth comfortable contours that will complement any bedroom decor. enGauge System uses just 5 components The entire support system assembles correctly in less than a minute without using any tools. Simply drop the wedge shaped tabs on the side rails into the legs of the cross rails and the enGauge Support System squares up naturally. Unlike the competition, there are no sharp edges with the enGauge support system. EnGauge blends the strength of hardened steel angle with the safety of smooth lower contours. Injection molded fiberglass infused resins are warm to the touch, hygienic, and easy to clean.
